## Cash Funds Uncommitted Reserves Report

## Authority, Purpose, and Scope

This audit was conducted under the authority of Section 24-30-207, C.R.S., which requires the State Auditor to audit the Cash Funds Uncommitted Reserves Report prepared by the State Controller's Office. We conducted the audit in accordance with generally accepted auditing standards. The audit was performed during the period August 1999 through September 1999.

The Office of State Planning and Budgeting prescribed the format for the Cash Funds Uncommitted Reserves Report as prepared by the State Controller. The Report is included in the Financial Information section of this audit report.

## Background

Senate Bill 98-194 was signed into law on June 1, 1998, to:
... assure compliance with the limitation on state fiscal year spending and to make fundamental fiscal policy decisions establishing the level of activity of all departments and agencies of state government, including those funded by revenues generated from fees.

To accomplish this objective, Senate Bill 98-194 established a limit on the amount of reserves that may be maintained in cash funds. Generally, the reserve limit is equal to 16.5 percent of the total expenditures in the cash fund during the fiscal year. This amount is roughly equal to a two-month spending reserve. In some cases, an alternative reserve balance is established elsewhere by statute. If the applicable statutory limit is exceeded, agencies are required to reduce fees accordingly. In calculating the reduction in fees, an agency may take into account increases in expenses.

## The Effect on TABOR Revenue

Senate Bill 98-194 creates a mechanism to assist the State in complying with the limitations on fiscal year spending that are established by Article X, Section 20, of the Colorado Constitution (TABOR). Because the total of both general fund revenue and revenue received from cash-funded activities is limited by TABOR, any increases in fees for cash-funded services may cause the State to exceed the revenue limits established by TABOR. Therefore, Senate Bill 98-194 attempts to control the amount of fees charged by cash-funded programs.

Cash fund revenue made up about $\$ 2.2$ billion, or 28 percent of the $\$ 7.9$ billion of TABOR revenue received in Fiscal Year 1999. However, not all cash fund revenue is affected by Senate Bill 98-194. For example, the Bill specifically excludes certain cash funds (e.g., the Highway Users Tax Fund). Exclusions like this total about $\$ 1.4$ billion, making only about $\$ 820$ million in cash fund revenue subject to the provisions of Senate Bill 98-194. The Bill further excludes all cash funds with uncommitted reserves less than $\$ 50,000$. This exclusion reduces the total revenue subject to Senate Bill 98-194 compliance to about $\$ 332$ million, or about 4.2 percent of total TABOR revenue.

When TABOR revenue exceeds the revenue limitation, the excess is required to be refunded unless voters approve a revenue change as an offset. However, if an increase in revenue from cash-funded activities causes the State to exceed the revenue limits established by TABOR, the refund of excess revenue is not required to be paid from the cash funds that caused the excess. For example, for Fiscal Years 1997, 1998, and 1999, revenue collected in excess of the TABOR limitation was, or will be, refunded entirely from the State's general fund, not from cash funds.

## Methodology to Identify Cash Funds With Excess Uncommitted Reserves

Senate Bill 98-194 prescribes a methodology to determine the amount of excess uncommitted reserves for each of the State's cash funds. The following hypothetical example of a cash fund illustrates the methodology. Fund balance (adjusted for exempt assets and previously appropriated amounts) and revenue (categorized by fee and non-fee sources) are used to derive the amount of excess uncommitted reserves. For Fiscal Year 19XX, Cash Fund X had the following activity and account balances:

| Hypothetical Balances for Cash Fund X |  |
| :--- | :--- |
| Balances as of June 30, 19XX | $\$ 35$ |
| Ending fund balance | $\$ 2$ |
| Exempt assets as defined by SB 98-194 (e.g., inventory) | $\$ 3$ |
| Previously appropriated fund balance (e.g., capital construction) |  |
| Fiscal Year 19XX Revenue and Expenses | $\$ 100$ |
| Fee revenue | $\$ 50$ |
| Non-fee revenue | $\$ 150$ |
| Total revenue | $\$ 100$ |
| Total expenses |  |

Three steps are used to calculate the amount of excess uncommitted reserves:

1. Calculate the uncommitted reserve SFirst, the fund balance is reduced by exempt assets and any previously appropriated fund balance. (\$35-\$2-\$3 $=\$ 30)$. Next, the reduced fund balance is multiplied by the ratio of fee revenue to total revenue $(\$ 30 \times(\$ 100 / \$ 150)=\$ 20)$. The result is the amount of uncommitted reserve for Cash Fund X. This amount represents the portion of the fund balance that is attributable to fee revenue.
2. Calculate the target reserve STotal expenses are multiplied by 16.5 percent. $(\$ 100 \times 16.5 \%=\$ 16.50)$. The result is the amount of the target reserve for Cash Fund X. For some cash funds the target reserve is specified by statute (e.g., the Low-Income Telephone Assistance Fund's target reserve is $\$ 250,000)$.
3. Calculate the excess uncommitted reserve $S$ The target reserve is subtracted from the uncommitted reserve ( $\$ 20-\$ 16.50=\$ 3.50$ ). If the amount is greater than zero, this is the excess uncommitted reserves.

Therefore, Cash Fund $X$ has an excess uncommitted reserve of $\$ 3.50$ at the end of Fiscal Year 19XX.

During our audit we noted several problems with the prescribed methodology that significantly impacts the outcomes of the above calculations. See our discussion and

Recommendation No. 2 on pages 23 through 31 in the Findings and Recommendations section of this report.

## Excess Uncommitted Reserves Increased in Certain Cash Funds From 1998 to 1999 While Decreasing in Others

The purpose of Senate Bill 98-194 is not only to eliminate excess uncommitted reserves existing on June 30, 1998, but to keep all cash funds from increasing their uncommitted reserves over the target reserve in future years. Although 19 funds eliminated their excess uncommitted reserves during 1999, 17 other funds generated excess uncommitted reserves for the first time in 1999.

|  | Excess Uncommitted Reserves <br> Fund Changes |
| :---: | :--- |
| Fiscal Year 1998 to Fiscal Year 1999 |  |

Of the 50 funds with excess reserves that appeared on both the 1998 and 1999 reports, 19 funds increased the excess uncommitted reserve balance and 31 decreased excess uncommitted reserves.

The intent of the legislation was for agencies to reduce the excess uncommitted reserves in their cash funds through reductions in fees, thereby reducing excess TABOR revenue. In addition, Senate Bill 98-194 allows agencies to increase
expenses in their cash funds rather than reduce fees. We found that most agencies chose to increase expenses rather than decrease fees.

We selected 23 funds at 11 agencies for further analysis of changes in expenses. We found that 17 funds increased expenses from 1998 to 1999 rather than instituting a decrease in fees. Of these 17 funds, Senate Bill 98-194 reduced the excess reserves of 4 funds by making transfers from those funds to other funds. Expenses in the other 6 funds selected decreased from the prior year. An increase in expenses and transfers out will result in a reduction of the excess uncommitted reserves, however, the revenue subject to TABOR will not be decreased.

We also reviewed changes in revenue for 26 funds at 10 agencies. We found that the fee amounts were decreased in 3 of the funds and increased in another fund. The remaining 22 funds had no adjustment in the fees charged.

Overall, we found that for those cash funds with decreases in excess uncommitted reserves, the reductions are accomplished through increases in expenses rather than by lowering fees.

In addition, we reviewed the change in excess reserves for cash funds with the ten largest excess uncommitted reserve balances at the end of Fiscal Year 1998. We found that one of those funds eliminated the excess, seven reduced the excess, and two increased the excess from 1998 to 1999. As explained in the following table, the reductions in the excess uncommitted reserves were accomplished through a reduction in fees, an increase in expenses, transfers to other funds, or a combination of these.

Senate Bill 98-194 appears to be reducing total excess uncommitted reserves. However, for the most part the effect is being achieved by increasing expenses. The Fiscal Year 1999 Cash Funds Uncommitted Reserves Report shows 67 cash funds with excess uncommitted reserves of about $\$ 27$ million compared to 69 cash funds with excess uncommitted reserves of about $\$ 34$ million shown on the Fiscal Year 1998 Report. As shown in the table above, the total for the ten funds with the largest excess in Fiscal Year 1998 was approximately $\$ 24$ million. The total for Fiscal Year 1999 was $\$ 18.6$ million for the ten funds with the largest excess as shown in the following table. These ten funds represent 68 percent of the total excess uncommitted reserves as of June 30, 1999.

To monitor progress and ensure compliance with the statute, the Office of State Planning and Budgeting (OSPB) requires agencies to prepare a plan for reducing any excess uncommitted reserves for each cash fund as part of the annual budget request. Further consideration of these plans and the monitoring performed by OSPB is addressed in the Findings and Recommendations section of this report.

## Cash Funds Reporting at Higher Education Institutions Differs from Other Agencies

Generally, amounts on the Cash Funds Uncommitted Reserves Report agree to the State's central accounting system (Colorado Financial Reporting System, or COFRS). However, that is not the case for higher education institutions. The total revenue and total expenses included on the Report for all higher education institutions are both about $\$ 165.6$ million greater than the amounts on COFRS. The reason for the difference is the way the State Controller's Office reports interdepartmental transactions in expense accounts for purposes of Senate Bill 98-194.

Certain of the interdepartmental transactions-those within the same fund group-inappropriately inflate the revenue and expenses of higher education cash funds. However, an analysis of all interdepartmental transactions for a cross-section of Colorado colleges and universities for Fiscal Year 1998 found that less than five percent $(\$ 7,793,255$ out of a total of $\$ 160,417,076)$ of those transactions were within the same fund group. As a result, the inflation of revenue and expenses for higher education agencies in the Cash Funds Uncommitted Reserves Report has no effect on the excess uncommitted reserves reported.

Senate Bill 98-194 defines a cash fund to be any fund (other than the General Fund or any federal fund) established by law for a specific program or purpose. For higher education institutions, statutes generally create one fund for the deposit of monies to the State Treasury and payment of operating expenses for each higher education Governing Board.

For purposes of Senate Bill 98-194, the State Controller's Office did not use the statutory definition of a cash fund when compiling information on the higher education institutions. Instead, the State Controller's Office, with input from higher education representatives, defined the cash funds based on the accounting structure of the funds in COFRS. The reporting of cash funds by fund group on the Cash Funds Uncommitted Reserves Report is consistent for each institution or campus.

## Reporting Format

The law requires the State Controller to prepare an annual report for the purpose of ascertaining the amount of uncommitted reserves for each cash fund. The Cash Funds Uncommitted Reserves Report was created to meet this requirement. The Report must be delivered to both the Office of State Planning and Budgeting and the Joint Budget Committee by September 20 each year. The Office of the State Auditor is required to audit the Report.

We have compiled the following summary of the Cash Funds Uncommitted Reserves Report. The summary includes only those 67 cash funds with excess uncommitted reserves.

Total Excess Uncommitted Reserves

## Findings and Recommendations

During our audit we found problems with the monitoring of agencies by the Office of State Planning and Budgeting (OSPB) to ensure that uncommitted reserve balances in cash funds are eliminated in compliance with the legislation. There also continues to be inconsistencies in the calculations required for the Cash Funds Uncommitted Reserves Report. Following are recommendations to improve the monitoring of compliance and improve the usefulness of the report.

## Confusion Exists Regarding The Excess Cash Reserve Plan Requirement

Senate Bill 98-194 requires that OSPB "...shall annually review the total amount of revenues credited to cash funds...and the report of uncommitted reserves..." To aid in the monitoring process, OSPB, in conjunction with the Joint Budget Committee (JBC), is requiring all agencies, except higher education institutions, with excess uncommitted reserve balances to submit a Schedule 11, Excess Cash Reserve Plan, as part of the budget request. Higher education institutions are not required to submit a Schedule 11. JBC staff review higher education institutions' budgets for compliance with the Bill.

Although the plans are not required by statute, they can be a useful tool for ensuring compliance with the statute. The OSPB should utilize the plans to provide agencies with guidance and feedback on eliminating excess reserves. Each plan is expected to highlight agency proposals for reducing any uncommitted reserve balances and were required by OSPB for the first time to address excesses at the end of Fiscal Year 1998. However, OSPB did not evaluate or test the format before providing it to the agencies. The agencies' lack of understanding of the statute's requirements, combined with the untested format for submitting plans, resulted in confusion and submission of inadequate plans.

As part of our audit, we reviewed those plans submitted for Fiscal Year 1998 reserve balances. The initial drafts of the plans to reduce Fiscal Year 1999 excess uncommitted reserves were due to OSPB on September 20, 1999, and are scheduled for review by OSPB and revision in October. Because OSPB had not yet reviewed the plans or begun to work with the agencies on necessary modifications, we did not review the Fiscal Year 1999 plans as part of our current audit.

We found several problems with the Fiscal Year 1998 plans, including 1) plans that were not submitted for certain cash funds with excess uncommitted reserves; 2) submission of several plans containing errors and inconsistencies; 3) certain relevant information not being required in the plan format specified by OSPB; and 4) no evidence that plans were reviewed or utilized by OSPB in the budget process or as part of its procedures for determining compliance with the statute.

Some agencies with excess cash reserve balances did not submit a plan. Two departments did not submit plans for all of their agencies' cash funds with excess uncommitted reserves. The Department of State did not submit plans for three of its funds and the Department of Regulatory Agencies provided five of the required plans, but no plans for a fund with excess uncommitted reserves in nine of its agencies. Without a written plan, it is not possible to evaluate whether the excess uncommitted reserves will be eliminated in compliance with the statute.

The nine plans relating to one cash fund were not submitted at all by the Department of Regulatory Agencies (DORA). DORA believed that because the funds are part of a larger fund spread across several agencies within the Division of Registrations, it was not necessary to submit a plan. There was no excess for the fund in total. Because the fees from one agency cannot be used by another to off-set deficiencies, the fund should be treated as a separate fund in each of the agencies for the purpose of determining excess uncommitted reserves, and plans for individual agencies should be submitted.

Two out of the three funds with excess uncommitted reserves at the Department of State had some of the highest excesses at June 30, 1998. Because these excesses are so large, it is important that the Department formulate plans to eliminate the excess uncommitted reserves by the statutory deadline. The plans were not submitted for the Department of State because the employee preparing the budget was not aware of this requirement for Fiscal Year 1998. The Department is in the process of completing the plans for Fiscal Year 1999. However, the Legislature did take action on the excess, transferring \$3.7 million to other funds during Fiscal Year 1999.

Most plans obtained by the Office of State Planning and Budgeting contained incorrect or incomplete information. The OSPB provided a template for use by agencies in documenting their plans. As part of each plan, agencies were to provide prior year information from the report-uncommitted reserve, fee revenue, total revenue, target reserve, number of years to reduce the reserve, etc.-and future year projections of the same information. The projections were to show the ways in which the agencies intended to reduce the excess uncommitted reserves within the statutorily specified time-frame. The length of time an agency has to reduce excess uncommitted reserves varies depending on the excess. Specifically:

- If the uncommitted reserves are greater than the target reserve but less than 50 percent of the Fiscal Year 1998 fund expenses, action must be taken to reduce the uncommitted reserve balance below the target reserve by the end of Fiscal Year 2001 (within three years). Of the 69 funds with excess uncommitted reserves at June 30, 1998, 30 were required to submit three-year plans.
- If the uncommitted reserves are greater than the target reserve but more than 50 percent of the Fiscal Year 1998 fund expenses, the uncommitted reserve must be reduced below the target reserve by the end of Fiscal Year 2003 (within five years). Of the 69 funds with excess uncommitted reserves at June 30, 1998, 39 were required to submit five-year plans.

Of the 69 plans, 12 were not prepared, leaving 57 plans that were submitted to OSPB. During our testwork, we noted errors and inconsistencies with information reported on the 57 plans, including the following:

- We found that for 15 plans, the June 30, 1998, amounts reported in the plans did not agree with the Cash Funds Uncommitted Reserves Report for Fiscal Year 1998. Because some agencies did not use the amounts from the Fiscal Year 1998 Report as the basis for making the calculations, projected excess uncommitted reserves were incorrect and the excess may not be eliminated within the timeframe specified in the statute.
- Mathematical errors were noted in seven plans. Such errors affect the projected excess uncommitted reserves at the end of each subsequent year in the plan.
- Comparison of the plans to actual Fiscal Year 1999 results found that five of the plans were not reasonable. The projected revenue and expenses for Fiscal Year 1999 varied significantly from the actual amounts. Consequently, the excess uncommitted reserves may not be reduced within the allotted time if these plans are not modified in future years.
- Five plans did not appropriately address how the excess was to be reduced or did not address the excess because of other errors made in preparing the plan. For instance, in one fund, the agency shows an excess remaining at the end of the third year which it assumes will be appropriated to another fund by the General Assembly. However, the section of Senate Bill 98-194 appropriating an amount from this fund to another fund during Fiscal Year 1998 was not passed. It is not known whether similar legislation will be passed in future years. As such, the agency should make every effort to develop other means to reduce the excess.
- Two of the plans did not reduce the excess uncommitted reserves to $\$ 0$, but to less than $\$ 50,000$. Because the statute exempts funds with uncommitted reserves of less than $\$ 50,000$ the agencies erroneously believed that the excess did not have to be completely eliminated.
- One of the plans we reviewed did not conform to the correct time-frame. This fund was required to submit a three-year plan but submitted a five-year plan instead.

The plan template provided to agencies by the Office of the State Planning and Budgeting did not require certain useful information. For example, the OSPB did not request total expense figures, only fee expenses. Target reserves are computed based on total expenses. Without knowing total expenses, it is not possible to determine whether the agency's plan eliminates the excess in the time allotted. In our review of the 57 plans submitted, we could not determine whether the agencies used total expenses or fee expenses in their calculations. The results of our review of the plans, as noted above, assume that the target reserve for each plan was calculated correctly using total expenses. The OSPB's revised format for 1999 requires that agencies now provide more useful information, including total expenses.

There is no evidence that the Office of State Planning and Budgeting reviewed the plans that were submitted for Fiscal Year 1998. Although OSPB required the agencies to submit plans to aid in its statutorily mandated annual review, the OSPB did not appear to utilize the plans as part of its review process. As a result, agencies may not have received the necessary feedback and guidance from OSPB to develop realistic plans for complying with the statute for Fiscal Year 1998.

The OSPB, in conjunction with a committee of department budget officers, developed a new format for the plan to be submitted by agencies with the Fiscal Year 2001 Budget Request. These plans were due in September 1999 to address excess uncommitted reserves that existed at June 30, 1999.

## Recommendation No. 1:

The Office of State Planning and Budgeting should:
a. Review all Excess Cash Reserve Plans submitted by agencies.
b. Continue to evaluate the usefulness of the Plans to determine whether adjustments are needed in the reporting requirements or in the format.

# Office of State Planning and Budgeting Response: 

Agree. The OSPB has provided detailed instructions and a template for preparing cash reserve plans. Currently, the OSPB is reviewing draft plans submitted by departments in the Executive Branch for FY 2000-01. We will continue to monitor progress in reducing reserve balances and compliance with the statutory deadlines established in S.B. 98-194. We review our instructions on preparing plans on an annual basis and will evaluate whether changes in the reporting requirements would be useful.

## The State Controller's Office Should Continue to Seek Clarification of Cash Reserves Legislation

In the 1998 Cash Funds Uncommitted Reserves Report we recommended that the State Controller's Office seek clarification of Cash Reserves legislation. Representatives from the State Controller's Office met with representatives from the Joint Budget Committee in June 1999 to discuss our recommendation and to explain the need for statutory clarification. However, no changes were proposed to the General Assembly during Fiscal Year 1999.

There are several requirements that should be changed because they inaccurately represent the cash reserve as being lower than it truly is. The major problems still needing statutory changes include: 1) exclusion of non-fee transactions in the determination of the uncommitted reserve but not the target reserve; 2) inclusion of compensated absence liabilities for higher education and proprietary funds, but not for other types of funds; and 3) no consideration of the effect of federal funds in the calculations. Further discussion of each problem follows.

## Non-Fee Transactions Are Excluded to Determine the Uncommitted Reserve but Not the Target Reserve

Senate Bill 98-194 requires that non-fee revenue be excluded from the calculations of the cash fund's uncommitted reserve balance. Non-fee revenue includes interest income and grants. Fee revenue includes monies received for registrations and various sales. However, the law does not similarly exclude non-fee expenses in
calculating the target reserve. Consequently, the uncommitted reserve and the target reserve are not calculated using the same components, because non-fee activities are taken out of one (i.e., the uncommitted reserve) but not the other (i.e., the target reserve). Computing the target reserve in accordance with the statute uses both fee and non-fee expenses. If the target reserve were figured excluding non-fee expenses as is consistent with the computation of the uncommitted reserve balance, the resulting target reserve would be less and therefore the uncommitted reserves would be higher.

The effect of including non-fee expenses in the target reserve is to understate excess uncommitted reserves in those cash funds that have non-fee revenue. The following table shows a hypothetical example.

| Example of the Impact of Excluding Non-Fee Expenses When Calculating the Target Reserve |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Method | Fund <br> Balance | Fee <br> Revenue $\qquad$ <br> Total <br> Revenue | Fee Expenses $\qquad$ <br> Total Expenses | Uncommitted Reserve <br> (Fund balance $x$ (fee revenue/total revenue)) | Target Reserve | Excess <br> Reserve |
| Current | \$100,000 | $\begin{aligned} & \$ 120,000 \\ & -------- \\ & \$ 300,000 \end{aligned}$ | Not Considered \$280,000 | \$40,000 | $\begin{gathered} \$ 46,200 \\ (16.5 \% \\ \text { of total } \\ \text { expenses) } \end{gathered}$ | \$0 |
| Proposed | \$100,000 | $\begin{aligned} & \$ 120,000 \\ & -------- \\ & \$ 300,000 \end{aligned}$ | $\begin{array}{r} \$ 112,000 \\ --------- \\ \$ 280,000 \end{array}$ | \$40,000 | $\begin{gathered} \$ 18,480 \\ (16.5 \% \\ \text { of fee } \\ \text { expenses) } \end{gathered}$ | \$21,520 |
| Difference | \$0 | \$0 | Fee expenses determined \& used in calculation | \$0 | \$(27,720) | \$21,520 |
| Source: Office of the State Auditor analysis. |  |  |  |  |  |  |

In the example above, excluding non-fee expenses resulted in a $\$ 21,520$ increase in excess reserves. If non-fee expenses were excluded from the calculation of target reserves for all cash funds with uncommitted reserves greater than $\$ 50,000$, the excess uncommitted reserves would increase by approximately $\$ 5.5$ million, or 20 percent of the 1999 total excess uncommitted reserves of $\$ 27.5$ million. This is a significant difference. This would increase the total number of funds with excess uncommitted reserves from 67 to 75 . Most of this increase takes place in various higher education cash funds (increase of about $\$ 1.3$ million) and the Wildlife Cash Fund (increase of over $\$ 3.2$ million). It should be noted that non-fee expenses are generally not reported separately in the accounting system. Consequently, we estimated the amount of non-fee expenses based on the percentage of non-fee revenue to total revenue.

## Compensated Absence Liabilities Are Handled Differently Among Cash Funds

Compensated absence liabilities represent amounts owed to current employees for accumulated annual and sick leave. Most government agencies record this liability in the General Long-Term Debt Account Group rather than in operating funds. However, higher education institutions and state agencies' proprietary funds record this liability in their operating funds. This practice results in the fund balance for higher education institutions and proprietary funds being lower than other funds. Consequently, the excess uncommitted reserves for higher education institutions are eliminated or reduced from what would exist if compensated absences were not recorded in the cash fund.

The following table contains a hypothetical example showing the effect of excluding the compensated absence liability from the uncommitted reserve. This example assumes no other changes in methodology.

| Example of the Impact of Excluding the Compensated Absence Liability From the Uncommitted Reserve |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Method | Fund Balance | Fee Revenue ---------- <br> Total Revenue | Total Expenses | Uncommitted Reserve (Fund balance $x$ (fee revenue/total revenue)) | Target Reserve ( $16.5 \%$ of total expenses) | Excess <br> Reserve |
| Current | \$100,000 | $\begin{array}{r} \$ 120,000 \\ -------- \\ \$ 300,000 \end{array}$ | \$280,000 | \$ 40,000 | \$ 46,200 | \$0 |
| Proposed | $\begin{gathered} \$ 120,000 \\ \text { (excludes } \\ \$ 20,000 \\ \text { compensated } \\ \text { absence } \\ \text { liability) } \end{gathered}$ | $\begin{array}{r} \$ 120,000 \\ -------- \\ \$ 300,000 \end{array}$ | \$280,000 | \$48,000 | \$46,200 | \$1,800 |
| Difference | \$ 20,000 | \$0 | \$0 | \$8,000 | \$0 | \$1,800 |
| Source: Office of the State Auditor analysis. |  |  |  |  |  |  |

Senate Bill 98-194 already contains a provision that excludes long-term assets credited to a cash fund from the calculation used to determine uncommitted reserve. The General Assembly should also consider whether compensated absence liabilities should be excluded from the uncommitted reserve because of their long-term nature and the fact that they generally do not affect annual operations. Compensated absence liability represents a long-term obligation that would be owed to all employees if an entity ceased operations. Compensated absences are normally paid only to those employees who retire or leave an organization during the year. Therefore, compensated absence payments typically are made from annual operating revenues and do not require changes in fees.

# Cash Funds That Receive Federal Funds Have Inappropriately Lower Uncommitted Cash <br> <br> Reserves 

 <br> <br> Reserves}

Some cash funds receive revenue from federal sources (e.g., Department of Natural Resources, Division of Wildlife Fund). Senate Bill 98-194 requirements exclude federal funds revenue since it is considered non-fee revenue. Thus, the fund balance is reduced based on the portion of federal revenue to total revenue.

Although federal revenue is non-fee revenue, we believe it should not be used to reduce uncommitted reserves. This is because most state-administered federal programs are cost reimbursement programs. Cost reimbursement programs have no effect on the fund balance because total revenue received from the federal government equals total expenses for the federal program.

Because fund balance is being reduced by the ratio of non-fee revenue (including federal revenue) to total revenue, the amount of uncommitted reserves resulting from fee revenue is lowered when federal revenue is present. Therefore, a cash fund that has federal revenue will have the benefit of a lower uncommitted reserve than a cash fund that does not have federal revenue. The following table contains a hypothetical example showing the effect of excluding federal funds when calculating the uncommitted reserve balance. This example assumes no other changes in methodology.

| Example of the Impact of Excluding Federal Funds When Calculating Uncommitted Reserves |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Method | Fund <br> Balance | Fee <br> Revenue $\qquad$ <br> Total <br> Revenue | Total Expenses | Uncommitted <br> Reserve <br> (Fund <br> balance $x$ (fee <br> revenue/total revenue)) | Target Reserve (16.5 \% of total expenses) | Excess <br> Reserve |
| Current | \$100,000 | $\begin{aligned} & \$ 120,000 \\ & ---------- \\ & \$ 300,000 \end{aligned}$ | \$280,000 | \$40,000 | \$46,200 | \$0 |
| Proposed | \$100,000 | $\begin{aligned} & \$ 120,000 \\ & --------- \\ & \$ 270,000 \\ & \text { (Total } \\ & \text { revenue } \\ & \text { excludes } \\ & \$ 30,000 \\ & \text { of federal } \\ & \text { revenue) } \end{aligned}$ | \$250,000 <br> (Total expenses exclude $\$ 30,000$ of federal expenses) | \$44,444 | \$41,250 | \$3,194 |
| Difference | \$0 | $\$(30,000)$ <br> in total revenue | $\$(30,000)$ <br> in total expenses | \$4,444 | \$ $(4,950)$ | \$3,194 |
| Source: Office of the State Auditor analysis. |  |  |  |  |  |  |

We believe that federal revenue and federal expenses should be deducted from the cash fund's total revenue and total expenses to provide a more accurate measure of the amount of fund balance that is attributable to fee revenue.

## The State Controller's Office Should Continue to Seek Clarification of Cash Reserves Legislation

The intent of Senate Bill 98-194 is to ensure compliance with limitations on state spending and make fiscal policy decisions on revenue generated from fees. The Bill's mechanism for doing this is to limit cash fund reserves to a specified level and require reductions of fees if excess reserves are accumulated. The inconsistencies in the methodology discussed above affect the calculation of excess cash reserves and the
corresponding requirement to reduce fees. We believe the State Controller's Office should continue to work with the Joint Budget Committee to propose changes that clarify the cash reserve legislation in the above areas.

We modified the Cash Funds Uncommitted Reserves Report (see Appendix C) to illustrate the combined effects of:

- Eliminating non-fee expenses from total expenses in calculating the target reserve.
- Excluding the compensated absence liability for all cash funds.
- Excluding federal revenue from the calculation of uncommitted reserves.

For cash funds with uncommitted reserves greater than $\$ 50,000$, the result of these changes increased the amount of excess uncommitted reserves by approximately $\$ 8.5$ million or 31 percent of the 1999 total of $\$ 27.5$ million. These changes also increased the total number of funds with excess uncommitted reserves from 67 to 77 . Of these three modifications, eliminating non-fee expenses from total expenses had the largest effect on excess uncommitted reserves. The following table shows the ten cash funds most affected by these changes and the dollar amount of the changes.

## Recommendation No. 2:

The State Controller's Office should continue to work with the General Assembly and propose statutory changes to:
a. Exclude non-fee expenses from total expenses in calculating the target reserve.
b. Exclude compensated absence liabilities from the uncommitted reserves for all cash funds.
c. Exclude federal revenue and expenses from a cash fund's total revenue and total expenses.

## State Controller's Office Response:

Agree. The State Controller's Office will provide technical assistance to the Joint Budget Committee, at their request, regarding these findings and recommendations. Implemented by June 30, 2000.

## Disposition of Prior Audit Recommendations

The following recommendations are from the Cash Funds Uncommitted Reserves Report for the fiscal year ended June 30, 1998. Recommendation numbers shown below are those used in the Fiscal Year 1998 report.

## Recommendation

1
The State Controller's Office should work with the General Assembly to propose statutory changes to:
a. Exclude non-fee expenditures from total expenditures in calculating the target reserve.
b. Exclude compensated absence liabilities from the uncommitted reserves for all cash funds.
c. Exclude federal revenues and expenses from a cash fund's total revenues and total expenses.

The State Controller's Office should obtain information on interdepartmental transactions from higher education institutions and revise its Cash Funds Uncommitted Reserves Report methodology to exclude such transactions within the same fund group.

## Disposition

Not implemented. See current year Recommendation No. 2.

Partially implemented. The Controller's Office received information from several institutions on inter-
departmental transactions
within the same fund group. Excluding those transactions would have little or no effect on uncommitted reserves for higher education institutions. See our discussion of higher education institution transactions in the body of our report.

## Financial Information

# Independent Auditor's Report 

Members of the Legislative Audit Committee:
We have performed the procedures enumerated below on the Cash Funds Uncommitted Reserves Report of the State of Colorado for the fiscal year ended June 30, 1999. The accompanying Cash Funds Uncommitted Reserves Report is the responsibility of the State Controller's Office and was prepared for the purpose of monitoring compliance with Section 24-75-402, C.R.S. Our engagement was conducted pursuant to Section 24-30-207, C.R.S., in accordance with standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary.

Our procedures and findings are as follows:

1. For the State's colleges and universities, we agreed the fund balance and fee revenue to the State's central accounting records without exception. However, the total revenue and total expense for higher education cash funds reported on the Cash Funds Uncommitted Reserves Report are both $\$ 165,583,801$ higher than the State's central accounting records. See our discussion of higher education cash funds. The fund balance, exempt assets, fee revenue, total revenue, and total expense for all other agencies agreed to the State's central accounting records without exception.
2. We agreed the previously appropriated fund balance to the statutory appropriation without exception.
3. We recalculated the non-fee fund balance, the uncommitted reserve, the target reserve, and the excess uncommitted reserve without exception.
4. We compared the alternative reserve with the amount specified in statutes without exception.
5. We compared the types of accounts used to compile the amount of exempt assets and fee revenue with their statutory definitions without exception.
6. We compared each cash fund with its enabling statute, as applicable. Most cash funds were established by law for a specific program or purpose with the exception of the funds in the State's colleges and universities. See our discussion of higher education cash funds.

The objective of our engagement was not to express an opinion, and accordingly, we do not express such an opinion. Had we performed additional procedures sufficient to express an opinion, other matters might have come to our attention that would have been reported.

This report is intended solely for the information and use of the Joint Budget Committee of the General Assembly and the Office of State Planning and Budgeting and should not be used for any other purposes. However, this report is a matter of public record and its distribution is not limited.

## NOTES TO CASH FUNDS UNCOMMITTED RESERVES REPORT

## NOTE 1. PURPOSE

Section 24-30-207, Colorado Revised Statutes, requires the State Controller to prepare a report showing the amount of uncommitted reserves credited to each of the State of Colorado's cash funds. This report is prepared in accordance with the statutory definitions and may not agree to financial reports prepared on a GAAP basis. The report must be audited by the State Auditor. The report is to be delivered to the Office of State Planning and Budgeting and to the Joint Budget Committee on or before September 20 of each year.

## NOTE 2. CASH FUND DEFINED

Section 24-75-402 (2) (b), Colorado Revised Statutes, defines "cash fund" to mean any fund, other than the state general fund and any federal fund, established by law for a specific program or purpose.

The balances of each fund are generally reported at the fund and agency level except that certain higher education funds have been combined to more accurately reflect the activity in those funds.

## NOTE 3. CASH FUNDS EXCLUDED

The following cash funds are specifically excluded from the cash reserves report:

- Any cash fund for which revenue are derived solely from fees, the amounts of which are established by the federal government;
- Any cash fund for which revenue are derived solely from fees set by the Colorado Supreme Court in the exercise of
its exclusive authority to regulate the practice of law;
- Any cash fund for which revenues are derived solely from fees set by an enterprise, as defined in Section 24-77-102 (3), Colorado Revised Statutes, or a special purpose authority;
- Any cash fund that is established for capital construction;
- Any cash fund for which the reserve amounts are based on actuarial requirements;
- Any trust funds;
- Any cash fund with uncommitted reserves of less than $\$ 50,000$;
- The Petroleum Storage Tank Fund;
- The Hazardous Substance Response Fund;
- The Land and Water Management Fund;
- The Brand Inspection Fund;
- The Colorado State Fair Authority Cash Fund;
- The Highway Users' Tax Fund; and
- The State Highway Fund.

## NOTE 4. FUND BALANCE

Fund balance is the net of total assets and total liabilities in each fund as of June 30, 1999.

## NOTE 5. EXEMPT ASSETS

Exempt assets are any long-term assets or non-monetary current assets held by the fund at June 30, 1999. "Non-monetary" current assets are those that either cannot be converted to cash or are held with the intent of being used rather than converted to cash, including but not limited to consumable inventory and prepaid expenses.

## NOTES TO CASH FUNDS UNCOMMITTED RESERVES REPORT

## NOTE 6. PREVIOUSLY <br> APPROPRIATED FUND BALANCE

Previously appropriated fund balance is that portion of fund balance that has been appropriated for capital construction or other multi-year purposes.

## NOTE 7. FEE REVENUE

Fee revenue means any moneys collected by an entity, except that fee revenue does not include:

- Any moneys collected from sources excluded from state fiscal year spending, as defined in Section 24-77-102 (17), Colorado Revised Statutes;
- Any moneys received through the imposition of penalties or fines or surcharges imposed on any person convicted of a crime;
- Any moneys received through the imposition of taxes;
- Any moneys received from charges or assessments, the amount of which are not determined by the entity;
- Any moneys received from gifts or donations;
- Any moneys received from local government grants or contracts;
- Any moneys received through direct transfers from another entity, enterprise, or a special purpose authority; or
- Any moneys received as interest or other investment income.

## NOTE 8. NON-FEE <br> FUND BALANCE

Non-fee fund balance is calculated by subtracting any exempt assets and previously appropriated fund balance from total fund balance and multiplying the result times the ratio of non-fee revenue to total revenue.

## NOTE 9. UNCOMMITTED RESERVE

Uncommitted reserve is calculated by subtracting any exempt assets and previously appropriated fund balance from total fund balance and multiplying the result by the ratio of fee revenue to total revenue.

## NOTE 10. TARGET/ALTERNATIVE RESERVE

Target reserve is defined as 16.5 percent of Fiscal Year 1999 expenditures. In some cases, an alternative reserve is used when there is a reserve limit established by statute.

## NOTE 11. EXCESS UNCOMMITTED RESERVE

Excess uncommitted reserve is the amount by which the uncommitted reserve exceeds the target/alternative reserve.

Receives a $\$ 25$ portion of each licensing fee of manufacturers, distributors, wholesalers, and retailers of liquor that are collected by the State's General Fund. The Fund also collects application fees for licenses and permits. The fee revenue is to be used for enforcement actions to comply with the liquor code and to support law enforcement.

A $\$ 10$ fee from taxpayers is assessed to provide their lending institutions a notification from the Department of Revenue when they are delinquent in the payment of sales, withholding, special fuel, etc. taxes.

## Fund

404 - Distributive Data Processing

## DEPARTMENT OF STATE

200 - Secretary of State Fees

11C - County Clerk's Technology Fund

268 - Central Indexing System Cash Fund

## Description

Fees are collected from counties to support the network computer system that counties use for motor vehicle registrations; the counties pay a portion of the State's title fees- $\$ 2.50$ for a new title and $\$ 1.00$ for a duplicate title; and license fees- $\$ 1.15$ or $\$ 32.00$ for a license plate.

Collects fees for filing articles of incorporation, for registering notary publics, issuing official certificates, and making official copies of documents; some of the specific fees assessed include a 3 percent charge on bingo sales, $\$ 50$ for articles of incorporation, and $\$ 50$ to issue trademarks.

A $\$ 3$ fee is charged for every Uniform Commercial Code (UCC) filing; this money is paid to the county clerks for the use of the Central Indexing System Fund as described next.

A $\$ 1$ surcharge is assessed on UCC electronic filings done through the office of the Secretary of State or any Office of a County Clerk and Recorder which is used to fund system hardware, software, programming, and maintenance. The filing provides companies the ability to retrieve lien information on other companies.

## DEPARTMENT OF TREASURY

406 - Air Account (Emission Control)

Collects $\$ .25$ per form for the sale of emission stickers to emissions testing facilities. Fees of $\$ .50$ and $\$ 1.50$ are charged on vehicles registered with the Motor Vehicle Division. These fees are passed through to the Department of Public Health and Environment and the Department of Revenue to cover the costs of administration and enforcement of the automobile inspection and readjustment program.
