The Legislative Council, which is composed of five Senators, six Representatives, and the presiding officers of the two houses, serves as a continuing research agency for the legislature through the maintenance of a trained staff. Between sessions, research activities are concentrated on the study of relatively broad problems formally proposed by legislators, and the publication and distribution of factual reports to aid in their solution.

During the sessions, the emphasis is on supplying legislators, on individual request, with personal memoranda, providing them with information needed to handle their own legislative problems. Reports and memoranda both give pertinent data in the form of facts, figures, arguments, and alternatives.

Dear Mr. Chairman:

Your Committee on Education submits herewith its report on the proposed revision of school laws. It includes drafts of ten proposed bills affecting various areas of education.

This completes the school law recodification project which was begun by the 1963 Interim Committee on School Law Revision. That committee recommended a number of major school bills, nearly all of which were adopted by the General Assembly in 1964. Most of the remaining areas of Colorado school law are covered by the bills recommended in this report.

Respectfully submitted,

/s/ Representative Ruth B. Clark  
Chairman, Committee on Education

## FOREWORD

House Joint Resolution No. 1030, 1964 regular session, directed the Legislative Council to appoint a committee from the membership of the two standing education committees to complete the revision of Colorado school laws begun in 1963.

The members of the committee making this study were: Representative Ruth B. Clark, chairman; Senator Fay DeBerard, vice chairman; Senators Richard F. Hobbs, Roy H. McVicker, and L. T. Skiffington; and Representatives Palmer L. Burch, Forrest G. Burns, John Kane, Kathleen P. Littler, John G. Mackie, John P. Orcutt, Clarence H. Quinlan, William F. Stevens, and C. P. (Doc) Lamb, chairman of the Legislative Council.

Although the committee had three assignments in addition to school law revision, nine of the twelve days of meetings held during the year were devoted primarily to the school law study.

Dr. Elbie L. Gann and other members of the staff of the State Department of Education had primary responsibility for preparing the materials and drafts considered by the committee. Miss Clair Sippel of the Legislative Reference Office prepared the bills for introduction. Miss Janet Wilson of the Legislative Council staff assisted in the preparation of the final report.

The committee wishes to thank the many persons who attended meetings of the committee and offered written comments and suggestions. The entire recodification project has been a cooperative effort involving many individuals and groups interested in education, as well as the committee itself.

# PROPOSED REVISION OF COLORADO SCHOOL LAWS

November, 1964

## Committee Recommendations

The Committee on Education has completed the school law revision begun by the Interim Committee on School Law Revision in 1963. Nine bills are recommended for consideration during the 1965 session of the General Assembly. One of these -- Teacher Employment, Dismissal, and Tenure -- was recommended (in slightly different form) in December of 1963, but was not included in the Governor's list of items for consideration in the 1964 session. The other bills cover subjects which were postponed in 1963 because of lack of time.

Each of the proposed bills is accompanied by comments which explain the sources and effects of the various provisions. The major changes from present law are summarized below.

### Employment and Dismissal of Teachers and Teacher Tenure -- Bill A

The committee recommends the enactment of Bill A, which would repeal and re-enact article 18 of chapter 123 (the teacher tenure act). Proposed changes include the following:

1. Provisions on employment and dismissal of teachers (including non-tenure teachers) would be combined with provisions on tenure in a single article.
2. Written contracts would be required for the employment of all except substitute and part-time teachers.
3. Every contract would contain a provision whereby the local board of education could assess financial damages against a teacher in an amount equivalent to one-twelfth of the annual salary if such teacher abandons the contract without having given sixty days' written notice to the board of education.
4. The contract date would be changed from April 15 to April 22.
5. Each board of education would be required to adopt a salary schedule.
6. Dismissal procedures would be the same for both non-tenure and tenure teachers. No teacher could be dismissed without a hearing being offered and without an opportunity for the teacher to hear specific charges which led to the dismissal. This should not be confused with non-renewal of contract for a non-tenure teacher for the following year, for which it is not necessary to make formal charges or provide opportunity for hearing. Notice of non-renewal on or before April 22 would be sufficient.
7. It would be written into law that a teacher whose employment is on a nine-month basis, but paid on a twelve-month basis, shall be

entitled to receive a pro rata share of the three months' summer salary in the event his services are terminated during the regular school year.

8. The term one must serve before he can acquire tenure is clarified. Basically, tenure would be acquired after continuous, uninterrupted 36 months of service, counting the months school is not in session, and being employed to continue to serve in the same district. (This would take care of the instances in which a teacher is employed to begin in the middle of a school year.)

9. Probationary times served would not be lost for temporary illness or military leave of absence, but time on military leave would not be counted as part of the probationary period. Other absences and leaves may or may not be countable toward the attainment of tenure, as determined by the local board of education.

10. If a teacher has acquired tenure in a school district and all or part of that school district becomes part of another district (through consolidation, annexation, or reorganization), the teacher's tenure status would continue in the successor school district.

11. The proposal would make it possible for a board of education to transfer a tenure teacher to a lower paying, less responsible position without similarly reducing the salary of half the teachers in the district.

12. The grounds for dismissal of a teacher would be physical or mental disability, incompetency, neglect of duty, immorality, conviction of a felony, insubordination, or other good and just cause.

13. A taxpaying elector would be able to file a complaint against a teacher if such complaint is written and signed under oath.

14. The tenure panel procedure would be deleted from the law. A teacher could have a hearing before the local board, and could appeal the decision to district court.

#### Teachers' Emeritus Retirement Fund -- Bill B

The committee recommends two changes in the teachers' emeritus retirement law:

1. The proposal would permit teachers who claim they were misinformed regarding the implication of their choosing not to join PERA to become eligible by signing an affidavit that they were misinformed. Assuming a maximum of 20 new participants, the annual cost of this provision would be \$18,540.

2. The requirement that the applicant be a Colorado resident at the time of application would be removed. The applicant would still have to be a Colorado resident as of the date of retirement. The Department of Education is unable to estimate the number of new participants who would be brought into the program by removing the residence requirement. Therefore the cost of this change is not known.

Repeal of "General Provisions" Chapter -- Incorporation of Certain Provisions Thereof in 1964 Act Concerning Powers and Duties of Boards of Education -- Bill C

The committee recommends Bill C, which repeals article 21 of chapter 123, entitled "General Provisions." A few of the provisions are retained as amendments to the 1964 act concerning powers and duties of boards of education. The bill:

1. Repeals several statutory requirements regarding curriculum -- the requirement that instruction be in the English language, the requirement for instruction in Colorado history and government, and the requirement for instruction on the effects of alcohol and narcotics. The requirements for instruction on the American flag and the United States Constitution would be retained as duties of the local school board.

2. Retains the provision for a local school board to collect enrollment information from private schools located in the district.

3. Leaves the determination of residency up to the local board of education. Detailed residence requirements would be deleted from the statutes.

4. Repeals the definitions of "public school" and "national holidays".

5. Repeals the definition of "school age" and the proviso that a school board may admit any child who will attain school age during the school year, subject to the cut-off date set by the board.

6. Repeals requirement for physical examinations.

7. Repeals prohibition against secret fraternities.

Handicapped Children -- Bill D

The committee recommends the enactment of Bill D, which repeals and re-enacts article 22 of chapter 123, concerning the education of handicapped children. The major changes from present law include:

1. "Educationally handicapped" children would be included as a new category for which state aid will be available. "Educationally handicapped" includes emotionally handicapped and perceptually handicapped. The Department of Education estimates the cost of this addition to the program for the first year of operation at less than \$100,000.

2. Reimbursement for all programs (physically handicapped, educable mentally handicapped, educationally handicapped, speech handicapped, and programs for hospitalized or homebound pupils) would be at 80% of the salaries of approved personnel rather than on the basis of excess cost. Accounting and reporting would be much simpler under the proposed change. Fewer reports would be required from local districts. Entitlements for existing programs under the proposal would be approximately the same as entitlements under the present method of reimbursement.

3. The proposal would change the age bracket from "6 to 21" to "5 to 21" except for physically handicapped, where the age remains at "3 to 21."

4. Handicapped children would be placed on a normal tuition basis. The wording would be changed to eliminate the contention that a school district can be required to pay tuition for attendance in another district.

5. The amount the state board may pay for maintenance would be increased from \$500 to \$800. The amount for transportation would be changed from \$150 to 50% of the cost. The proposal would eliminate the requirement that the Department of Education must ascertain that the district of residence cannot maintain a program before paying for maintenance and transportation.

6. Parental consent would be required prior to examination by a psychologist to determine whether a mental handicap exists and also prior to examination by the members of a committee appointed to determine whether an educational handicap exists.

#### Migrant Education -- Bill E

The committee recommends Bill E, which repeals and re-enacts article 29 of chapter 123, on education of migrant children. The only major change from present law would be to permit summer school programs for "home-based" migrants. The estimated cost of this new inclusion would be \$15,000 per year.

#### "Diploma Mills" -- Bill F

The committee recommends the enactment of Bill F, which is designed to prevent the operation of so-called "diploma mills" by regulating the awarding of degrees. The major provisions of the bill are:

1. No person or institution would be permitted to award an "associate," "bachelor's," "baccalaureate," "master's," or "doctor's" degree in this state except: a state college or university; a private college or university; a seminary or bible college which is a bona fide religious institution and is exempt from property taxation; and a school, college, or university which offers approved courses of instruction or study in chiropractic, medicine, osteopathy, chiropody, physical therapy, or optometry.

2. Any non-exempt person or institution awarding such a degree would be guilty of a misdemeanor.

3. The State Department of Education would administer the act and would have authority to proceed by injunction against any violation. The estimated cost for the first year of operation would be \$17,500.

## Proprietary Schools -- Bill G

The committee recommends Bill G, which provides for the regulation of vocational and technical proprietary schools not otherwise regulated. The bill contains the following major provisions:

1. Vocational and technical proprietary schools would be regulated under the supervision of the State Board of Education. The estimated cost of administering the act during the first year of operation would be \$17,500.
2. Types of schools exempted would include tax-supported institutions; parochial, denominational, or eleemosynary institutions; schools conducted primarily for recreational purposes; schools or courses sponsored by business firms for their employees, or by recognized business or professional organizations for their members; apprenticeship training programs; state colleges, junior colleges, and universities; private colleges and universities comparable to the state colleges and universities; private schools comparable to the public schools; nursery schools; and schools regulated and licensed under an occupational licensing act.
3. Each non-exempt proprietary school would have to meet minimum standards, pay a \$25 fee, and post a \$5,000 surety bond in order to obtain the required annual certificate of approval.
4. Each agent who recruits students for a non-exempt proprietary school would have to be of good moral character, pay a \$5 fee, and post a \$5,000 surety bond in order to obtain the required annual agent's permit.
5. Certificates of approval and agents' permits could be revoked for violation of the act.
6. Any approved school could be evaluated upon its request to determine if it meets accreditation standards. If the school qualifies, it would be issued a certificate of accreditation. Accreditation would not be one of the requirements for operation of a proprietary school; it would be an added endorsement.
7. The State Board of Education would be assisted by a seven-member advisory committee. Four members would represent proprietary schools; one would represent industry; one would represent labor; and one would represent the public.

## School District Organization -- Bill H

The committee recommends the enactment of Bill H, which repeals and re-enacts article 25 of chapter 123, concerning school district organization. The major changes from present law include:

1. No new district could be formed under the organization act if it would have fewer than 50 pupils in grades nine through twelve (unless approved by the State Board of Education).

2. Several changes would be made in organization election procedures to conform to the new school election law adopted in 1964. Precincts would be established and registration would be required.

3. An organization plan could provide for either four-year terms or six-year terms for board members. The optional length of term follows the precedent established in the school election law.

4. Technical changes and additions would be made to clarify procedures with regard to bonded indebtedness, assets and liabilities under various types of organization plans.

5. The question of assuming existing bonded indebtedness would be submitted at the organization election. It could not be submitted after the formation of the new district.

6. Dissolution and annexation would be mandatory for non-operating districts.

### Libraries -- Bill I

The committee recommends Bill I, which repeals and re-enacts the article on libraries (article 1 of chapter 84). This bill contains the following major changes from present law:

1. Methods of financing municipal, county, and regional libraries would be revised. Regional libraries could be financed by either appropriation from the general fund of the governmental unit or units sponsoring the library or the levy of a special library tax of not more than  $1\frac{1}{2}$  mills. Municipal and county libraries could be financed by either or both of these methods. At present, municipal libraries are financed by the  $1\frac{1}{2}$  mill library levy (this does not necessarily apply to home rule municipalities); county and regional libraries are financed from the county general fund (with authorization for a tax on the area served by a regional library if only part of a county).

2. The proposal contains a section enabling the state library or any other public library in the state to enter into interstate library compacts.

3. Willful mutilation (as well as retention) of library property would be made a misdemeanor.

4. The present "taxpaying elector" requirement for signing a petition for establishment of a library would be replaced by a "qualified elector" requirement.

5. Positions of the commissioner of education (ex-officio state librarian) and the deputy state librarian (to be designated director of the state library) would be clarified.

6. Size of library board would be changed from "five" to "not less than five nor more than nine". County superintendent would not be an ex-officio member of the county library board.

## Amendments to 1964 Law on Accounting and Reporting -- Bill J

The committee recommends three changes in the 1964 law on accounting and reporting of financial transactions of school districts (chapter 76, Session Laws of 1964, commonly referred to as House Bill 1015). Bill J would make these changes:

1. "Capital outlay expenditures" would be defined. At the present time the school laws contain no definition of capital outlay.

2. The purpose for which the general fund may be used would be clarified. The general fund could be used for any lawful expenditure, including any expenditure which could be made from any other fund. This would correct the situation existing under the present law, which has been interpreted by some as prohibiting the use of general fund moneys for transactions which could be financed from another fund.

3. The capital reserve fund could be used for the acquisition of school busses or other equipment if the unit cost exceeds \$2,500. The present law permits such acquisitions from the capital reserve fund only if the unit cost exceeds \$5,000.

is a general reduction in the salaries of 50 per cent or more of all teachers in the district.

New provision.

(2) If by mutual agreement between a board and a teacher the salary of such teacher is payable in equal installments over a period of time exceeding the period of time during which his services are to be performed, upon termination of the employment of said teacher prior to the end of the academic year and prior to receiving all of said salary installments, said teacher shall be entitled to a pro rata share of the salary installments due and payable pursuant to said agreement for the period during which no services are required to be performed, except as provided in section 123-18-7 (4) and except if said teacher is dismissed for cause.

New provision based on Attorney General's opinion to the effect that a teacher is legally entitled to receive a pro rata share of his summer salary (even though services are to be performed only on a nine-month or ten-month basis) in the event his employment is terminated during the regular school year.

(3) Section 123-18-14 (2) shall be applicable to a teacher who has not acquired tenure.

123-18-14 (2) herein provides for suspension and for regular compensation during temporary suspension.

123-18-7. Employment contracts -- written. (1) Every employment contract hereafter entered into by any teacher for the performance of services for a school district shall be voidable unless said contract shall have been reduced to writing, except as provided in subsection (2) and (3) of this section.

New provision requiring written contracts for the employment of full-time teachers not classified as substitutes.

(2) Subsection (1) of this section shall not be applicable to a part-time teacher or substitute teacher.

See 123-18-2 (5) and (6) of this bill for definitions of part-time and substitute teachers.

(3) The failure, neglect, or refusal to reduce an employment contract to writing as required by subsection (1) of this section

shall not affect the acquisition of tenure as prescribed by sections 123-18-11 through 123-18-17.

(4) Every employment contract hereafter executed pursuant to subsection (1) of this section shall contain a liquidated damages provision. Pursuant to said provision a teacher shall agree to pay liquidated damages to the school district, and the board thereof shall be authorized to collect or withhold liquidated damages from compensation due or payable to said teacher in an amount equivalent to one-twelfth of the annual salary specified in said employment contract. Said liquidated damages shall be paid by the teacher or withheld from his salary if the teacher abandons, breaches, or otherwise refuses to perform services for said school district pursuant to the contract, unless the teacher has given written notice to the board of education thereof on or before the first day of July that he will not fulfill the obligations of his contract for the succeeding academic year or, after the beginning of the academic year, unless the teacher has given at least sixty days written notice to the board thereof during the academic year to the effect that he wishes to be relieved of his contract for the remainder of said year as of a certain date.

123-18-8. Interest prohibited. (1) It shall be unlawful for any employee of a school district to take or receive any part or portion of moneys from the sale, proceeds, profit, or items in lieu thereof, of any book, musical instrument, school supplies, school apparatus, or other materials, including custodial, office, and athletic supplies, sold to a minor, or the parent or guardian of any such minor enrolled in the school wherein said employee is performing services or which may be sold to said school district;

COMMENTS

New provision. Requires that every contract shall contain a provision whereby the teacher agrees to pay liquidated damages to the school district if he abandons or breaches his contract without sixty days notice. The board of education may collect or withhold compensation in an amount equivalent to one-twelfth of the annual salary of the teacher in such cases. This provision does not apply to teachers' resignations duly accepted by the board.

For consistency, section 123-17-21 (2) should be changed from 30 days to 60 days notice.

This subsection is meant to apply to tenure teachers as well as non-tenure teachers, under interpretation that the tenure act creates a contract by operation of law.

New provision. Prohibits school district employees from participating in businesses which sell school supplies, without the written consent of the school board.

## TEXT

provided, that it shall not be unlawful for an employee to receive a part or portion of moneys from the sale, proceeds, profit, or items in lieu thereof if such employee shall first obtain the written consent of the employing board of education.

(2) Any employee who shall violate the provisions of subsection (1) of this section shall be guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine of not more than one hundred dollars, or by imprisonment in the county jail for not more than ninety days, or both such fine and imprisonment.

123-18-9. Automatic re-employment. A teacher employed by a school district on a full-time basis who has not acquired tenure shall be deemed to be re-employed for the succeeding academic year at the salary which he would be entitled to receive under the general salary schedule unless the board thereof shall cause written notice to the contrary to be given to said teacher on or before the twenty-second day of April of the academic year during which said teacher is employed. Exceptions are based in part on present 123-18-2, 123-18-3, and 123-17-14 (4). The new exception for teachers of 65 or more will prohibit such persons from acquiring tenure. (See also 123-18-17 of this bill.)

If a tenure teacher who has been transferred to the position of chief executive officer of a school district shall be returned to regular classroom instruction under the provisions of this subsection, he shall regain his tenure status acquired before such transfer.

Based in part on present 123-18-5, with details added for clarification. Authorizes the transfer of a teacher from an executive or administrative position to regular classroom instruction even though the teacher is not shown to be "unsatisfactory" in the executive or administrative position. In addition, a written complaint, signed under oath, against any teacher may be filed by any qualified taxpayer as defined in section 123-11-1 (3), with the secretary of the board of the school district employing the teacher. At its next regular meeting, the board shall accept or reject the charges or complaint.

BILL B -- TEACHERS' EMERITUS RETIREMENT FUND

A BILL FOR AN ACT  
CONCERNING ELIGIBILITY OF TEACHERS FOR BENEFITS TO BE PAID FROM  
THE STATE TEACHERS' EMERITUS RETIREMENT FUND.

Be It Enacted by the General Assembly of the State of Colorado:

SECTION 1. 123-19-15 (4) and (7), Colorado Revised Statutes  
1963, are hereby amended to read:

123-19-15. Teachers eligible. (4) Shall have retired from  
teaching in the public schools of Colorado prior to July 1, 1967,  
AND SHALL HAVE BEEN A RESIDENT OF COLORADO AS OF THE DATE OF SUCH  
RETIREMENT;

(7) ~~If retiring from school service after January 1, 1952,  
and prior to January 1, 1957, having first had the opportunity  
to join the public employees' retirement system as of January 1,  
1952; and having failed to elect such option because the respective  
school authorities had not indicated to the respective teachers  
that they would lose their entitlements to receive benefits from  
the state teachers' emeritus retirement fund, shall apply to the  
commissioner of education as otherwise specified in section  
123-19-16 on or before July 1, 1957, and shall execute respective  
affidavits that the conditions specified in this subsection are  
true and correct; IF ANY TEACHER HAS MET ALL OTHER REQUIREMENTS AS  
BEFORE STATED AND HAS TAUGHT IN ONE AND THE SAME SCHOOL DISTRICT  
SINCE JANUARY 1, 1952, AND FAILED TO ELECT THE OPTION TO JOIN THE  
PUBLIC EMPLOYEES' RETIREMENT ASSOCIATION BECAUSE OF FAILURE OF  
SCHOOL AUTHORITIES TO PROPERLY INFORM HIM OF SUCH MEMBERSHIP AS A  
CONDITION TO ELIGIBILITY FOR BENEFITS UNDER THE TEACHERS' EMERITUS  
RETIREMENT FUND, SUCH TEACHER SHALL MAKE APPLICATION TO THE COM-  
MISSIONER OF EDUCATION AS OTHERWISE SPECIFIED IN SECTION 123-19-16  
AND SHALL EXECUTE AN AFFIDAVIT ON FORMS PROVIDED BY THE OFFICE OF  
THE COMMISSIONER, SETTING FORTH THAT THE CONDITIONS SPECIFIED ARE  
TRUE AND CORRECT;~~

COMMENTS

Section 123-19-15 specifies  
the requirements for eligibility  
for teachers' emeritus retire-  
ment benefits.

This addition to subsection (4)  
is for clarification in view  
of the removal of the require-  
ment for residence as of the  
date of application.

The present subsection (7)  
provides for applications from  
persons who presented affi-  
davits stating that they failed  
to join PERA because they had  
not been properly informed that  
this would result in a loss of  
teachers' emeritus benefits.  
Such applications can no  
longer be received, however,  
because of the 1957 deadline.

The proposed revision of sub-  
section (7) would again permit  
applications under these  
conditions -- until July 1,  
1967, the deadline set in  
123-19-16. About 15 to 25  
new applications are antici-  
pated under this provision.

TEXT

SECTION 2. Repeal. 123-19-15(5), Colorado Revised Statutes 1963, is hereby repealed.

SECTION 3. Effective date. This act shall take effect July 1, 1965.

SECTION 4. Safety clause. The general assembly hereby finds, determines, and declares that this act is necessary for the immediate preservation of the public peace, health, and safety.

COMMENTS

Only persons who have taught in the same school district since 1952 would be involved.

123-19-15(5) reads: "Be a resident of Colorado as of the date of application". The number of new participants who would be brought into the program by removing this requirement is not known.

A BILL FOR AN ACT  
CONCERNING SCHOOLS AND PROVIDING FOR THE EDUCATION OF HANDICAPPED CHILDREN.

Be It Enacted by the General Assembly of the State of Colorado:

SECTION 1. Article 22 of chapter 123, Colorado Revised Statutes 1963, is hereby REPEALED AND RE-ENACTED, WITH AMENDMENTS, to read:

123-22-1. Short title. This article shall be known and may be cited as the "Handicapped Children Educational Act".

Based on part of present 123-22-2 but specifically lists types of handicaps rather than referring to "any physical disability".

Based on part of present 123-22-2. Age is changed from "6 to 21" to "5 to 21".

123-22-5. Administration. This article shall be administered by the state board, which shall maintain sufficient qualified personnel to supervise the provisions hereof, utilizing the existing facilities of the state departments of health, welfare, rehabilitation, and institutions, when possible and needed. Changes the wording from "maintenance" to "maintenance in foster homes".

Based on Present 123-22-4. Adds the state departments of rehabilitation and institutions.

Present 123-22-16 would be eliminated. It concerns utilization of public health and welfare services.

Based on present 123-22-11.

Subsections (1) and (2) are based on parts of present 123-22-2 and 123-22-6. Proposal specifies "physician" and "psychologist" in lieu of "accredited personnel".

COMMENTS

"Capability of receiving benefits" from the special program would no longer be a statutory criterion for eligibility in district of residence.

Subsection (2) specifically requires consent of parent or guardian prior to psychological examination for mental handicaps.

This proposal eliminates most of present 123-22-6, which contains procedures for application by parent or guardian to local or county superintendent prior to examination and enrollment in a special program in district of residence. It also eliminates present 123-22-17, which provides that no child shall be required to be enrolled in a special program if the parent or guardian certifies to the local school board's satisfaction that the child is receiving adequate educational advantages.

(3) The determination of existence of an educational handicap and the proper placement of an educationally handicapped child in a program of a school district shall be made, with the consent of the parent or guardian of the child, by a special committee appointed by the board of education of such school district and the composition of which shall be prescribed by the state board.

Subsection (3) is new. Consent of the parent or guardian would be required. The state board would set up guidelines to be followed in establishing the local committee.

## IXI

(4) If no special program shall exist in the school district of residence of any handicapped child, the parent or guardian, or the board of education of such school district, may make application for enrollment of such child in a special educational program existing in another school district. Upon determination of eligibility and capability of receiving benefits from enrollment in such a program, and upon approval of both boards of education of such school districts, said child may be enrolled in such program.

(5) The final approval of the enrollment of any eligible handicapped child in a special educational program shall be made by the board of education of the school district providing such program and such child may be enrolled for a trial period not exceeding nine months.

123-22-8. Establishment of special education programs. Any school district may establish a special program for the education of handicapped children, or any classification thereof, and two or more school districts may contract with each other to establish and maintain a special educational program pursuant to law for the education of handicapped children, sharing the costs thereof in accordance with the terms of the contract agreed upon.

123-22-9. Maintenance. For each child enrolled in a special program for handicapped children in a school district other than the school district of residence, the state board may pay to the school district of residence for the maintenance in a foster home of each such child an amount not exceeding eight hundred dollars per school year, or in lieu of maintenance, one-half the cost of transportation of such child as provided in section 123-22-11. Payment for maintenance in a foster home shall be made only in case the parent or guardian of the child does not maintain a residence within the school district wherein the child is enrolled, and where a financial need shall have been determined through a public welfare agency.

## COMMENTS

Based on present 123-22-12, but eliminates specific reference to payment of tuition. Present law provides that "the district of residence shall pay to the district of attendance an amount equal to the yearly cost of educating a normal child of like age in such district of attendance".

Based on present 123-22-7.

Based on present 123-22-5 but does not use the term "special education districts". Reference to contracts between districts replaces provision for state regulation of cost-sharing between districts in a joint program.

Based on present 123-22-13. Eliminates provision for payment of tuition by the state; present maximum is \$300. Raises the maximum amount for maintenance in foster homes from \$500 to \$800. Changes the amount for transportation to "one-half the cost"; present maximum is \$150. Payment would be made to district of residence rather than to district of attendance. Eliminates

123-22-10. Instruction of hospitalized or homebound children. Special instructional services for handicapped children who are hospitalized or homebound may be provided by any school district in which such children are residents. School districts providing such approved services may be reimbursed by the state board up to eighty per cent of the salaries paid teachers for such services. Total length of time of instruction shall not exceed thirty-eight weeks in any school year.

123-22-11. School district report -- reimbursement -- proportion of funds. (1) The board of education of each school district which is eligible for reimbursement under any provisions of this article shall file with the state board on or before August 15 of each year, a report which contains a statement of the costs of approved personnel who have participated in approved special educational programs, the costs of maintenance in foster homes, and the costs of transportation.

(2) A school district which maintains and operates special educational programs approved by the state board for the education of physically handicapped, educable mentally handicapped, educationally handicapped, and speech handicapped children as defined by section 123-22-3 shall be entitled to reimbursement for:

(a) Eighty per cent of the salaries of approved personnel except that in any district which provides six or more classes for the educable mentally handicapped and in which the average daily attendance is less than the average of the average daily attendance of all classes in the state for the educable mentally handicapped, a ratio shall be established using these two figures, the average daily attendance of the district being the numerator, and the resulting factor to be applied against the claimed salaries of the teachers of the educable mentally handicapped;

COMMENTS

requirement that the department of education shall first ascertain that the school district of residence cannot maintain a special education program.

Based on present 123-22-14 and 123-22-15. Eliminates detail concerning application, investigation, and approval. Method of computing reimbursement would be changed. Maximum would be 80% of teacher's salary, whereas present maximum is based on excess hourly cost for up to five hours per week.

Based on part of present 123-22-9. Report would contain only the costs of approved personnel, costs of maintenance, and costs of transportation. State would be changed from June 30 to August 15.

Replaces present 123-22-8 and 123-22-10. Changes method of reimbursement. Excess cost would not be used. All programs would be reimbursed on the basis of 80% of the salaries of approved personnel. Transportation reimbursement would be changed from a maximum of \$150 to 50% of the cost after other state funds are deducted. Maximum reimbursement for maintenance would be increased from \$500 to \$800.

TEXT

(b) Fifty per cent of the cost of any approved special transportation provided for handicapped children, after other funds provided by the state are deducted;

(c) The full amount of the cost of maintenance of a child in a foster home, not to exceed eight hundred dollars per school year.

(3) In the event appropriations shall be insufficient to cover reimbursements provided for in subsection (2) of this section, all approved reimbursements, except those for maintenance in a foster home, which shall always be fully reimbursed, shall be prorated on the basis of total costs submitted in proportion to funds available for reimbursement.

(4) Payments of state aid under the provisions of this article shall in no way affect the amount of state aid for which a school district may otherwise qualify.

the definitions have been simplified.

Based on present 123-25-3(4) but eliminates reference to classes and types of school districts. Specifically excludes junior college districts.

Based on present 123-25-3(5) but changed to clarify that mere boundary changes do not result in a new district.

This subsection is based on present 123-25-3(9) but adds definitions of "qualified elector", "registered qualified elector", and "registered qualified taxpayer elector".

These definitions are basically the same as those in Chapter 70 and 74, S.L. 1964.

TEXT

(b) "Qualified taxpaying elector" means a qualified elector who, during the twelve months next preceding the election, has paid an ad valorem school tax upon property located within the new district or the area of the proposed district and owned by said person; and "registered qualified taxpaying elector" means a qualified taxpaying elector" means a qualified taxpaying elector who has complied with the registration requirements of law for the election of school directors.

Each watcher shall have the right to maintain a list of

Requirement for residence in the area of the proposed district is reduced from 90 days to 30 days, but 15-day precinct residence and 90-day county residence are new requirements.

voters, to witness and verify each step in the conduct of the election from prior to the opening of the polls through the completion of the count and announcement of the results, and, in case of discrepancies, to assist in the correction thereof.

(14) "School enrollment" means the end-of-year enrollment reported by the secretary of the board of education to the state department of education for the school year next preceding the school year in which the election is held.

123-25-4. School planning committee. (1) Except as provided in subsection (2) of this section, there shall be elected in each county, within sixty days after July 1 of each odd numbered year, beginning with July 1, 1965, a school planning committee, herein-after referred to as "the committee", of not less than nine nor more than thirteen members. The members so elected shall serve for terms of two years and until their successors are duly elected and qualified.

(2)(a) A committee need not be elected:

(b) In any county or city and county which has only one school district embracing the entire county or city and county, unless a majority of the members of the board of education of said school district make request to the state board for the election of such a committee, or unless the state board shall order a committee to be elected in such county or city and county.

New definition. Eliminates contention that there is only a single plan even though it may include more than one proposed new school district. Otherwise a court might invalidate the formation of several new districts for an invalid proceeding in the formation of only one such district.

Based on parts of present 123-25-4(1) and 123-25-5. Eliminates provision for 15 members in counties with more than 40 districts (no county has more than 40 districts now). Also eliminates reference to classification of school districts.

Based on part of present 123-25-4(1). Adds provision permitting the state board to order the election of a committee (even though not requested by the local board or boards). See also 123-25-5

(3) The commissioner shall notify in writing the county superintendent of each county in which a committee is required to be elected under the provisions of subsections (1) and (2) of this section. Within thirty days after receipt of such notification, the county superintendent shall call a meeting of the presidents of the boards of education of all school districts within his county. The notice of such meeting shall be sent by certified mail at least seven days before the date set for such meeting and shall state the time, place, and purpose of such meeting. If the president of any board of education cannot personally attend said meeting, it shall be his duty to designate in writing a member of his board as his proxy, who shall have the same rights as said president if attending personally. If the board of education in any county or city and county which has only one school district embracing the entire county or city and county requests the election of a committee as authorized by subsection (2)(b) of this section, said board shall set the date for a meeting within sixty days after such request is made to the commissioner.

(4) At said meeting, the number of members of the committee shall be established, within the limits prescribed in this article, by a majority vote of those present, provided a quorum is in attendance. A quorum shall be a simple majority of the presidents of the boards of education notified under subsection (2) of this section, or their proxies. (2)(a) The election shall be held in the manner prescribed by law for a school district to incur bonded indebtedness unless otherwise specified in this section. The outstanding bonded indebtedness incurred by more than one school district, or the proportionate shares thereof, may be assumed simultaneously by a new district under the provisions of this section through the submission of a single ballot; provided, that voting on separate amounts, or alternative voting, on one ballot shall be prohibited.

(b) If one or more whole school districts have been included in a new district, the ballot shall contain a statement of the amount or amounts of outstanding bonded indebtedness proposed to be assumed by the new district. If only a portion of the territory of an old school district has been included in a new district, the proportionate share of the outstanding bonded indebtedness incurred by said old school district to be assumed shall be determined on the basis of the total amount of outstanding bonded indebtedness on the first day of the month next immediately preceding the month during which the election is to be held, in proportion to the amount of the valuation for assessment of all taxable property within the territory of the old school district so included in the new district, as shown by a certification of such valuation for assessment made by the county assessor, or assessors if the territory is situated in more than one county, on the first day of the month next immediately preceding the month during which the election is to be held. (3) Only registered qualified taxpaying electors eligible to vote on the question of a school district incurring bonded indebtedness shall be entitled to vote on the question of assuming the outstanding bonded indebtedness, or proportionate share thereof, pursuant to the provisions of this section.

(2)(a) The boards of education of the adjoining new districts or of old school districts each having a school enrollment of over fifteen hundred shall adopt a resolution relative to the proposed change in boundaries, which shall set forth the legal description of the proposed new common boundary, and such legal description of the proposed new boundary shall be identical in the resolution adopted by the board of education of each such school district, except for typographical errors or minor omissions, if any.

(b) The board of education of each such new district or old school district having a school enrollment of over fifteen hundred shall thereafter submit to the committee or committees a certified true and correct copy of said resolution; provided, that if a committee shall not be in existence in the county or counties, such copy shall be submitted to the county superintendent or superintendents.
