

Table 5

Hierarchical Regression for Variance in PTSD Symptoms at Time 1 Explained by Demographics, Exposure/Loss, Coping Efficacy, and Coping Strategy at Time 1

Step: Variables	R²chg	p	R²total	β	Unique R²chg	p
1. Demographics	.027	.32	.027			
Gender				.57	.00	.73
Ethnicity				1.46	.02	.07
SES				-.94	.00	.38
Acculturation				-1.05	.01	.09
2. Exposure/Loss	.312	<.01	.339			
Total Exposure				1.56	.03	.01
Resource Loss				.141	.03	.01
Total Loss				3.44	.06	<.01
3. Coping Efficacy	.059	<.01	.398			
General				-1.09	.04	<.01
Fire-related				-1.09	.01	.06
4. Coping	.115	<.01	.513			
Active				.22	.02	.02
Avoidance				.39	.02	.01
Distraction				-.12	.00	.26
Support Seeking				-.004	.00	.80
